Building Health & Science Careers for Young Adults with Asperger's Syndrome Conference

Why you should attend?

There may be numerous opportunities for employment in the health and science professions for young adults with Asperger's Syndrome. Conference participants will learn how to identify, create, and seize those opportunities by improving employment services, education, and pre-career experiences for adolescents and young adults with Asperger's Syndrome.

Sponsoring Organizations:

The University of Texas Health Science Center at San Antonio— School of Health Professions
The University of Texas Health Science Center at San Antonio—Briscoe Library
South Central AHEC
Workforce Solutions Alamo
Department of Assistive and Rehabilitative Services (DARS)

When: Saturday, February 6, 2010
9am—1pm
Where: UT Health Science Center at San Antonio Campus
